Desktop Slide

As we know, social distancing in the classroom is extremely difficult as many schools are already over capacity. The Student Safety panel is a very economical way to allow students to safely re-turn and use existing furniture.

- Installs in 30 seconds
- No permanent damage to existing furniture or flooring
- Stores flat and very compact when not in use
- Available in 12 colours
- Anti microbial acoustic material
- Made in Canada
- GreenGuard Gold Certified

Desktop safety panels

Classroom Safety Panels

Rapidly divide up your learning space with these convenient Classroom Safety Panels.

Made from PET acoustic material, these help absorb echoing caused by hard floors and high ceilings commonly found in gymnasiums and auditoriums.

Waiting Room Panels

Together, we can slow the spread of COVID-19 by making a conscious effort to keep a physical distance between each other. Physical distancing is proven to be one of the most effective ways to reduce the spread of illness during an outbreak. With patience and cooperation, we can all do our part.

Brush PET screens are a safe non-organic material that provides the texture of felt but is manufactured from recycled PET water bottles. The material is not affected by water or common cleaning solutions.

- Installs in 30 seconds
- No permanent damage to existing furniture or flooring
- Stores flat and very compact when not in use

OUTDOORS

The new sleek top cap design conceals the sanitizer bottle, stopping unwanted attention and preventing the SaniTower from collecting trash.

The highlighted foot pedal clarifies pedal operation. All SaniTowers now have attachment points for the optional 'Welcome Sign'.
